

AAC 53

PRODUCT FACT SHEET

AAC 53

DESIGN BY HEE WELLING, 2014

The softness and warmth of the upholstered shell modifies the executive weight of the About A Chair AAC 53, bringing a welcoming expression to the otherwise functional and technical genre of office chairs. Retaining the same curved shell and unified silhouette that characterises the entire collection, the design features a five-legged castor base with a gas lift that can adjust the seat height. The aluminium base is available in different finishes, with the shell offered in multiple regular and quilted upholstery options. The multitude of variants and design combinations give this series a versatile expression that makes it suitable for a wide variety of corporate, private, and public contexts.

HIGHLIGHTS

- Part of a multi-functional family of dining and conference chairs, office chairs, bar stools, lounge chairs, tables, an ottoman and a sofa.
- Full upholstery in a large selection of fabrics and leathers.
- Variability of textiles, colours and base finishes.
- Available with plastic shell, with front- and seat upholstery (AAC 52) and full upholstery (AAC 53) in a large selection of fabrics and leathers.
- Shell is also available without armrest.
- The 5-legged base is equipped with a semi-automatic gas lift.
- Adjustable seat height varies from 42 to 56 cm.
- Other base options are: 4-leg steel base, swivel base, sled base, solid wood legs and moulded plywood legs.
- Other upholstery option is: a soft quilted version with added wadding in a large selection of fabrics and leathers.
- Suitable for a wide variety of private and public environments.
- Qualified for contract use.

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise the environmental impact throughout their lifecycle. We prioritise carefully selecting materials, such as recycled content, FSC-certified wood, and water-based lacquer, while continuously increasing the number of eco-certified products. We adhere to strict regulatory requirements, and the majority of our products are tested to meet international standards for strength, durability, and safety.
