HAY

SILHOUETTE SOFA

HIGHLIGHTS

- Modern 2- and 3-seater sofa series with organic expression offering low-and high back options
- The high back works particularly well in creating defined or intimate areas in offices/open spaces
- Available in a variety of fabrics and leathers
- Suitable for a wide variety of private and public environments
- Qualified for contract use

SILHOUETTE SOFA DESIGN BY GAMFRATESI

GamFratesi's Silhouette Sofa series is characterised by the smooth curve of the sofa's back, which seamlessly combines a strong character with a simple, organic expression. With an angular front view and defining piping details, the sofa appears compact and economical with space, yet light and spacious and offers generous seating. The family comprises sofas in different sizes and heights, with legs available in steel or solid wood and a number of selected textiles to choose from. The different configurations and strong structural language make the sofa a natural choice for defining space and creating intimacy in large and small areas in private and public contexts.

GamFratesi is a Copenhagen-based design agency comprising architect Stine Gam (born in Denmark in 1975) and industrial designer Enrico Fratesi (born in Italy in 1978), who met while studying architecture in Italy and founded their design agency GamFratesi Studio in Copenhagen in 2006. Using their dual cultural backgrounds, they fuse classic Danish craft traditions with a timeless Italian intellectual and conceptual approach. Their designs are characterised by an honest, natural expression, and the desire to communicate a story through the use of tradition, innovation and functionality. GamFratesi have received international recognition and they have exhibited work all over the world. For Hay, they have designed the Silhouette Sofa, Tuluo Table and Dorso.

FABRIC DIRECTION
The direction of the fabric varies depending if the sofa is low-or highbacked or a 2- or 3-seater, as they are upholstered lengthwise or widthwise. Therefore, this might create a visible difference in the direction of the textiles when combining different sofa variants. The difference varies from textile to textile, but is most noticeable in structured or striped upholstery.

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise the environmental impact throughout their lifecycle. We prioritise carefully selecting materials, such as recycled content, FSC-certified wood, and water-based lacquer, while continuously increasing the number of eco-certified products. We adhere to strict regulatory requirements, and the majority of our products are tested to meet international standards for strength, durability, and safety.
