

NEW ORDER HIGH TABLE

PRODUCT FACT SHEET

NEW ORDER HIGH TABLE

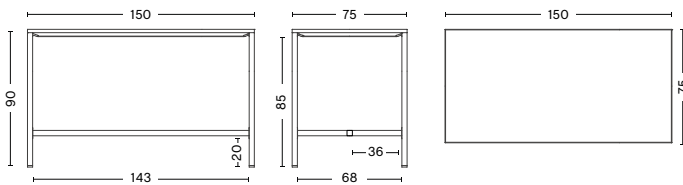

DESIGN BY STEFAN DIEZ, 2021

Featuring a simple construction in long-lasting materials, Stefan Diez' New Order High Table is a free-standing table that is designed for use as a high meeting table or work station in an office environment, as well as a kitchen counter or bar area in a private setting. The light, durable aluminium frame is available in two heights in several different colours, featuring a solid steel stretcher bar that optimises stability and also functions as a footrest. The table top is offered in linoleum with different colour options or water-based lacquered oak veneer, combining functional and aesthetic qualities in a versatile and customisable table design. Adaptable to a wide range of constellations and workspace applications, the table can be supplemented with cable management solutions to improve functionality and organisation.

HIGHLIGHTS

- New Order High Table designed by Stefan Diez is a part of the flexible New Order system, shelving and tables.
- The series combines functional and aesthetic qualities in a versatile and customisable design.
- It is a multi-functional free-standing table with a simple construction available in different sizes and two heights.
- The stretcher bar optimises stability and serves as a footrest.
- The table can be supplemented with different cable management solutions.
- It is available in a variety of colours and table top finishes.
- Knock-down table.
- Suitable for a wide variety of private and public environments.
- Qualified for contract use.

NEW ORDER CONFIGURATOR

The New Order Configurator enables you to design the ideal New Order system to suit your precise needs. Customise different combinations by selecting colours and materials, as well as adding panels, doors, drawers and shelves to create the perfect solution. Furthermore, the configurator also allows you to save and share your design, export DWG files and find prices and item list for your finished product.

CLOUD GREY LINOLEUM FORBO 4177				
WATER-BASED LACQUERED OAK				

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise the environmental impact throughout their lifecycle. We prioritise carefully selecting materials, such as recycled content, FSC-certified wood, and water-based lacquer, while continuously increasing the number of eco-certified products. We adhere to strict regulatory requirements, and the majority of our products are tested to meet international standards for strength, durability, and safety.
