

DESIGN BY HEE WELLING

HAY

AAC 225 & 225 SOFT

HIGHLIGHTS

- Part of a multi-functional family of dining and conference chairs, office chairs, bar stools, lounge chairs, tables, an ottoman, and a sofa
- Features a high-back armchair shell and four-star castor base that combine functionality with ease of movement
- Lower armrests offer good support while enabling the chair to fit underneath a table
- Fully upholstered shell available in a standard or soft quilted version, in a wide range of fabrics and leathers
- Available in multiple configurations across the AAC 200 series
- Suitable for a wide variety of private and public environments
- Qualified for contract use

AAC 225 & 225 SOFT DESIGN BY HEE WELLING

The AAC 225 counterbalances the high functionality and modern expression of the swivel four-star castor base with the softness of a fully upholstered shell. Designed with optimal functionality in mind, the shell construction offers a deep, generous seat that combines inviting aesthetics with a high level of comfort, whilst the lower armrests provide good support and enable the chair to fit underneath a table or desk. The post-consumer recycled plastic shell post-consumer recycled plastic shell is offered in a variety of regular and quilted upholstery options, giving this series great versatility in a wide range of corporate, public, and private contexts.

Hee Welling is a Danish furniture designer who founded his Copenhagen-based studio in 2003. He studied at the University of Art and Design Helsinki and earned a master's degree in furniture design from the Royal Danish Academy of Fine Arts. Known for combining technical precision with refined simplicity, Welling creates functional, accessible designs distinguished by their strong proportions and understated elegance. For HAY, Welling has designed the About A series and the Hee Chair, Lounge Chair, and Bar Stool.

SUSTAINABILITY

At HAY, we believe good design should stand the test of time. That principle shapes the decisions we make – from the materials and suppliers we work with to the certifications we pursue to ensure our products meet recognised standards. We use recycled content where possible, FSC®-certified wood (FSC-C148805), and bio-based foam that helps lower our products’ overall carbon footprint. We are also increasing the number of products certified with the EU Ecolabel and the Nordic Swan Ecolabel, reflecting our ambition to make lower-impact choices across our assortment. HAY follows strict regulatory requirements, and most of our products are tested to meet international standards for strength, durability, and safety.
