NELSON PEAR CRISSCROSS BUBBLE PENDANT DESIGN BY HERMAN MILLER, AVAILABLE FROM HAY

Part of the Nelson Bubble Lamp series, the Nelson Pear Bubble Pendant has a pear shape that flares towards the centre, with crisscrossing lines in the under structure that accentuate its curves. George Nelson originally designed the Bubble Lamp series in 1947. He was inspired by a set of silk-covered Swedish hanging lamps.

Born in Connecticut, USA, George Nelson (1908-1986) was one of the most influential figures in the crucial early period of modern design. Trained at Yale as an architect and a fine artist, he believed that a designer's job was to better the world, using the perfection of nature's creations as his guide. Two formative years in Rome following his receipt of the prestigious Rome Prize brought him into contact with the world's leading modernists, including Le Corbusier, Mies Van der Rohe, Walter Gropius, Gio Ponti, and many others, and helped shape his career as a writer and industrial designer, who would change the course of history.
