

DESIGN BY FRISO KRAMER & WIM RIETVELD, RELAUNCHED BY HAY TOGETHER WITH AHREND

HAY

RESULT ARMCHAIR

HIGHLIGHTS

- Part of a family of chairs, desks, dining-, café- and coffee tables and benches (Pyramid)
- FSC™-certified
- Strong and functional chair, which has been tested for institutional use over many generations
- Cutout sheet steel base with an oak seat and backrest
- A special tubular rivet provides the backrest with a high level of comfortable flexibility
- The 2D-moulded plywood ergonomic seat ensures superior comfort
- The chair's design means it can conveniently be placed on the table top
- Available in a variety of wood finishes and base colours that can be combined with the Pyramid Table or other tables in the HAY collection
- Available with seat upholstery in selected fabrics and leathers
- Available with and without arms
- Suitable for a wide variety of private and public environments
- Qualified for contract use

RESULT ARMCHAIR DESIGN BY FRISO KRAMER & WIM RIETVELD

Wim Rietveld (1924-1985) and Friso Kramer (b. 1922) were both Dutch-born. Wim Rietveld was an industrial furniture designer who studied Industrial Design at The Hague Academy, before starting work in 1958 at De Cirkel, a manufacturer of steel furniture that had merged with the Ahrend group in 1939. Friso Kramer studied Interior Design at the Institute of Applied Arts in Amsterdam, before he also worked at De Cirkel as a designer from 1948-1963. It was during their time at De Cirkel that the two designers met, together developing a number of iconic design collaborations, including the Result Chair in 1958. Together with Ahrend, HAY has reproduced the Rietveld and Kramer's original design of the Result Chair.

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise the environmental impact throughout their lifecycle. We prioritise carefully selecting materials, such as recycled content, FSC-certified wood, and water-based lacquer, while continuously increasing the number of eco-certified products. We adhere to strict regulatory requirements, and the majority of our products are tested to meet international standards for strength, durability, and safety.
