Cleaning instructions

Lacquered wood offers a stronger surface than oiling and is also effective when coloured surfaces are desired. Compared to oiled wood, lacquered wood is easier to clean and requires no maintenance.

For daily care it is recommended to dust the product with a soft cloth. Lacquered wood can be cleaned with a soft cloth wrung in a mild solution of lukewarm water and a universal cleaning detergent. Always follow the wood grains and always dry with a soft dry cloth immediately after cleaning.

Avoid use of abrasive cleaning agents and aggressive cleaning detergents as this will damage the surface of the lacquered wood. Avoid placing wooden furniture in direct sunlight, excessive heat or humidity.
