Cleaning instructions

Glass

- Daily cleaning of glass is best done using a dry soft cloth. If more severe cleaning is necessary, it is recommended to use a soft cloth in combination with a standard glass cleaning detergent and dry off with a soft dry cloth afterwards. Avoid using abrasive cleaning agents on glass as this will damage the surface.

Marble

Marble used on &tradition table tops is treated with a sealer which makes the table top more stain resistant than untreated marble. However, it is strongly recommended always to use a trivet and not to place glasses or cups with liquids directly onto the marble table top. As a natural material, marble is sensitive to liquids and if not removed immediately, spilled liquids will leave a permanent stain on the table top.

Chromed metal

It is recommended only to use a soft dry cloth to clean lacquered and powder coated surfaces but in case more severe cleaning is necessary, a soft cloth wrung in lukewarm water can be carefully applied. Always dry immediately after cleaning with a soft dry cloth. Avoid using abrasive cleaning agents or aggressive cleaning detergents on lacquered or powder coated surfaces as this may permanently damage the surface.

**Please follow steps 1 to 4 to
assemble the product.**

Step 1

Attach two legs (C) to a short frame (D)
using 4 screws (A).

Step 2

Attach two long frames (E) to the legs (C)
using 4 screws (A).

Step 3

Repeat step 1.
Place the leg/frame assembly on top of the long
frames (E) and attach them using 4 screws (A)

Step 4

Flip the table and place the table top inside the
frame. This step requires 2 persons. Be careful
not too squeeze your fingers when placing the
table top on the frame. Handle the table top
with care as it can easily scratch.
