- Functional and robust bar stool made of steel tubes and connected to moulded plywood seat
- The bar stool comes in two heights and multiple colours
- Suitable for a wide variety of private and public environments

TABURETE 8 BAR STOOL DESIGN BY MARC MORRO

Designed by Spanish designer Marc Morro, Taburete 8 Bar Stool uses direct design language to create a functional and robust bar stool with a distinct yet minimalistic expression. Both the curved plywood seat and steel tubing frame are clearly presented, with the different components enhanced by their raw simplicity and bold use of colour. Available in two heights, with the oak veneer seat and steel frame in different finishes and colours, Taburete 8 combines the comfortable seat with industrial aesthetics to create a versatile stool that is easy to integrate in bars and restaurants, as well as in private homes.

Spanish Designer Marc Morro's designs are characterised by his honest, direct approach, which he uses to create logical objects with minimalistic, clear constructions.

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise the environmental impact throughout their lifecycle. We prioritise carefully selecting materials, such as recycled content, FSC-certified wood, and water-based lacquer, while continuously increasing the number of eco-certified products. We adhere to strict regulatory requirements, and the majority of our products are tested to meet international standards for strength, durability, and safety.
