

DESIGN BY ANDREAS BERGSAKER

HAY

CHISEL COLLECTION

HIGHLIGHTS

- A cohesive collection of chairs, lounge chairs, stools, bar stools and tables, sharing a unified design language
- Crafted in wood with a focus on durability and long-lasting quality
- Developed with careful attention to craftsmanship and ergonomics
- Distinctive chisel-inspired details expressed through angled, bevelled legs
- Chairs and tables designed to pair seamlessly across different settings, with tables available in rectangular and round formats
- Available in a range of wood types, colours and upholstery options
- Suitable for private and public environments
- Qualified for contract use

CHISEL COLLECTION DESIGN BY ANDREAS BERGSAKER

Designed for HAY by Norwegian designer Andreas Bergsaker, the Chisel Collection is a timeless assortment of wooden chairs, stools, and tables with a distinctly contemporary expression. Born from an appreciation for wood and its inherent properties, the collection was developed with careful attention to detail and comfort. Defined by generous proportions, the design is shaped through careful craftsmanship and ergonomic consideration, balancing a strong character with a compact footprint. Named after the traditional carpentry tool, subtle chisel-inspired details are echoed throughout – seen in the angled, bevelled legs that give each piece a sculptural silhouette and a strong, consistent structural identity across typologies. Available in a wide variety of wood types, colours, upholstery options, and sizes, Chisel's adaptable design makes it suitable for a wide range of domestic and public settings – from living rooms, bedrooms, and kitchens to bars, cafés, and libraries.

Andreas Bergsaker is a Norwegian product designer based in Copenhagen. His work spans a wide range of everyday objects, created with a focus on longevity and relevance across generations. Rooted in an exploration of material and form, his designs reference cultural heritage with an emphasis on craftsmanship, industrial processes, and tactile qualities. For HAY, Andreas Bergsaker has designed the Korpus Shelf and the Chisel Collection.

SUSTAINABILITY
At HAY, we believe good design should stand the test of time. That principle shapes the decisions we make – from the materials and suppliers we work with to the certifications we pursue to ensure our products meet recognised standards. We use recycled content where possible, FSC®-certified wood (FSC-C148805), and bio-based foam that helps lower our products’ overall carbon footprint. We are also increasing the number of products certified with the EU Ecolabel and the Nordic Swan Ecolabel, reflecting our ambition to make lower-impact choices across our assortment. HAY follows strict regulatory requirements, and most of our products are tested to meet international standards for strength, durability, and safety.
